Rexnord Chain Guide Profiles Standard Box Quantity Upgrade

What is changing and when?

Rexnord now offers an upgraded standard box quantity for a selection of our Rexnord® Chain Guide Profiles. This upgrade will be effective as of February 2017.

Why is this change occurring?

The upgraded packaging protects products during transport.

Does this upgrade affect price and delivery?

The price will remain the same. However the delivery time has been improved thanks to optimized production capability.

Will there be a change in item description and code number?

Item descriptions and code numbers will remain the same.

Will there be a phase out period?

The upgraded standard box quantity for Rexnord Chain Guide Profiles will be effective when stock of the original packaging has run out.

Will the order procedure change?

With this upgrade, we will accept orders for standard box quantities only.

Upgrade Overview

Part Number	Length	Original Standard Quantity	Upgraded Standard Quantity
