

# Product Upgrade

Upgrade Effective:  
July 2018

NT820-21T\_25MM\_L\_PA

## Rexnord Classic Idlers Product Upgrade

### What is the scope of the upgrade?

Rexnord has upgraded the classic idlers and they will now be replaced by sprocket type NT820. The design of type NT820 is significantly more hygienic thanks to smoother and rounder surfaces. It is available to order and to ship as of July 2018.

### Does this upgrade affect price and warranty?

The price of the upgraded design as well as the warranty remains the same.

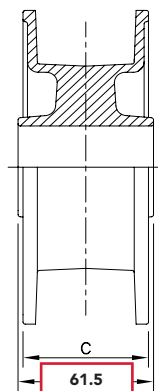

### Will there be a change in item description and code number?

Yes, new part numbers have been created - see the tables below.

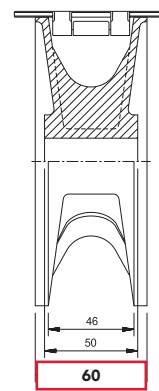

### Will the original design continue to be sold?

As soon as stock of the original design has run out, the product will be discontinued.

### Upgraded Design NT 820

### Original Design CD SHMF
