## Stainless Steel Roller Guides For Improved Corrosion Resistance

Rexnord FlatTop continuously develops and introduces new products for conveyors. Our three product lines; Rexnord®, MCC® and Marbett® are frequently reviewed to ensure they continue to provide high-performance and overall value to our customers.

### Marbett Side Roller Guides

Rexnord recently introduced new aluminum profile Marbett Side Roller Guides with improved low-friction rollers. These roller guides are available in four executions: two cylindrical-type rollers (in white polyethylene or blue rubber for soft touch on easy to damage products), Pearl™ rounded rollers and double diameter rollers. All versions are available in either single-sided or double-sided versions.

### Stainless Steel Roller Guides

We are introducing a new stainless steel profile version for improved corrosion resistance, ideal cleanability, mechanical strength and stiffness.

### High Line Efficiency

Marbett's stainless steel roller guides are a must in modern bottling lines where high-speed and undamaged bottles and containers must be delivered.

**870 Roller Side Guides with Cylindrical Rollers**  
Polyethylene PE (white)-Code nr. S0870649313

**871 Center Guides with Cylindrical Rollers**  
Polyethylene PE (white)-Code nr. S0871649323

**872 Roller Side Guides with Cylindrical Rollers**  
SEBS Rubber (Blue)-Code nr. S0872649333

**873 Center Guides with Cylindrical Rollers**  
SEBS Rubber (Blue)-Code nr. S0873649343

**874 Pearl Roller Side Guides**  
Polyethylene PE (White)-Code nr. S0874649363  
Polyethylene PE (Aubergine)-Code nr. S0874649353

**875 Pearl Roller Center Guides**  
Polyethylene PE (White)-Code nr. S0875649383  
Polyethylene PE (Aubergine)-Code nr. S0875649373
